Subject: Williams AFB Site Visit
To: Wayne Miller (Miller.Wayne@azdeq.gov) <miller.wayne@azdeq.gov>

Wayne,

I conducted a brief site visit to Former Williams AFB today. I spoke with Kevin Curnutt at Site ST012. There was very little activity there today. He indicated that the BioTrap samplers are scheduled to be deployed on Friday 2/21. I will call him on Friday morning to confirm the samplers are being deployed and will conduct another site visit to observe the sampler installation.

I conducted drive-by visits to sites LF004, FT002, and SS017 and did not observe any activity at either site, including any indications of activities not in compliance with existing LUCs. I noted that the entry gates at sites LF004 and SS017 were secured with padlocks.

Sincerely,

Steven A. Willis, RG
